| 7 direct train  | H | This kind of ticket is for going and coming back.          |

### Reading Test A

Last December Luke Seall decided to start the New Year with a special project: How much money could he earn in twelve months beginning with one penny? So why did Luke start such an unusual project? He says that he did it for fun and out of curiosity. When he was younger, his father told him: 'Look after the pennies and the pounds will look after themselves.' It will be interesting to see how much money Luke can make from his penny!

Luke has three rules. One: He won't use any more of his own money. Two: He can do anything legal to make money. Three: He won't accept gifts of money from other people.

You can follow Luke's progress on his website and so far it's been an interesting couple of months! He now owns ten square metres of land in Bulgaria! How did he manage this? Well, first he swapped his penny for three goldfish in a plastic bag. He met someone who wanted to give the fish away so Luke gave him the penny and took home the fish! Later, he swapped the goldfish for a guitar. It was quite a good guitar and Luke managed to swap it for a bicycle which he then sold for fifty pounds.

Then Luke looked online to see what he could buy with fifty pounds. By now he had a lot of visitors to his website and when someone offered to sell him a piece of land in Bulgaria, he accepted the offer. The land is quite big: Luke can put a tent on it for a camping holiday, grow some things on it or even build something on it. It's near the Black Sea and Luke has all the correct papers for it! So he is now a landowner – and it's only February!

Now Luke is looking for someone who would like to swap something for the land. If you have a suggestion, contact Luke on his website. I can't wait until 31st December. Will Luke be a millionaire by then? You never know.

**Read about an unusual project. Are the sentences true, false or not mentioned? Choose the correct answer.**

1. He was encouraged to start this project by something that his father used to say.

- A.  True  
B.  False  
C.  Not mentioned
